

Earn ABNS Continuous Certification Credits through American Spine Registry (ASR) Participation

As part of its wide variety of data reuse initiatives, the American Academy of Orthopaedic Surgeons (AAOS) Registry Program provides ASR surgeons the opportunity to fulfil the Part IV, Improvement in Medical Practice, requirement for The American Board of Neurological Surgery (ABNS) Continuous Certification (CC) for each year of participation in the Registry.

Steps to attain Part IV CC Credit:

1. Participate in ASR
 - Your hospital, health system, ambulatory surgery centers (ASC), or practice needs to be contracted with ASR and actively submitting data on your behalf (active = at least quarterly)
2. Create a Surgeon Authorized User account
 - Reach out to your site's Registry Authorized User to be added or contact Info@AmericanSpineRegistry.org
3. Login to the RegistryInsights® platform
 - You have access to view your data and download your ABNS letter at any time via the Surgeon Dashboard on RegistryInsights

The image displays two overlapping screenshots of the RegistryInsights platform. The top-left screenshot shows the sign-in page with the AAOS and RegistryInsights logos. It includes a 'Sign in with your existing account' section with fields for 'Email Address' and 'Password', a 'SIGN IN' button, and a 'Don't have an account?' section with a 'SIGN UP NOW' button. The bottom-right screenshot shows the Surgeon Dashboard for 'Dr. Anthony Brothers's Procedures'. It features a navigation bar with 'HOME', 'DASHBOARD & REPORTS', and 'TOOLS & RESOURCES'. The dashboard includes a 'PRINT MOC COVERSHEET' button (highlighted with a blue arrow and a callout box that says 'Select "PRINT MOC COVERSHEET" to download your letter'), a 'PRINT DASHBOARD' button, and a date range selector set to '5/19/2023 2:54:26 PM'. Below these are filters for 'Registry' (Lumbar), 'Age Groups' (All), 'Gender' (All), 'Primary Diagnosis Type' (All), 'Primary Procedure Type' (All), and 'Encounter Date Range' (1/1/2001 to 12/31/2023). The main content area shows 'Total Procedures Nationally' (130,072), 'Gender Distribution Nationally' (a pie chart), 'Mean Age Nationally' (a gauge chart), and 'Mean CCI Nationally' (29).

4. Select "Print MOC Coversheet"
 - Navigate to the yellow button at the top right of the page
 - Select "ABNS" for the letter type and the year to run your report
5. Download your letter and upload to your ABNS portal for credit
 - Separate letters are needed for each year you are interested in receiving credit
 - Reach out to Info@AmericanSpineRegistry.org with any questions

To Whom This May Concern,

Per the request of the [American Board of Neurological Surgery \(ABNS\) Continuous Certification \(CC\)](#) Part II, please see below for the details of participation for Dr. TestUser (ANTHONY BROTHERS) at Baptist Hospital.

As part of Baptist Hospital, Dr. TestUser (ANTHONY BROTHERS) is actively engaged with the American Spine Registry (ASR), a partnership between the American Association of Neurological Surgeons (AANS) and the American Academy of Orthopaedic Surgeons (AAOS), and has submitted the appropriate files to the ASR during the specified timeframe of 1/1/2001 - 12/31/2023.

Please see below for additional details.

Surgeon Name: TestUser (ANTHONY BROTHERS)
Site Name: Baptist Hospital
ASR Account: 1038018
Most Recent Files Submitted On: 5/9/2023
First Submission On: 3/31/2023

Please feel free to contact me with any questions or issues on this matter.

Sincerely,

Philip Dwyer
