Add the course recording for only $199!
Supplement your notes, hear it all again for improved retention, and earn 8 additional CME!

How to Register
1. Online at aaos.org/Hip2020
2. Call AAOS Customer Service at 1-800-626-6726 from 8:00 am to 5:00 pm CT. Outside U.S. dial +1-847-823-7186.

Hotel
Hampton Inn & Suites
9480 W. Higgins Road
Rosemont, IL 60018
Phone: 1-847-692-3000

The Hampton Inn offers the following amenities: free shuttle service to and from O’Hare airport, complimentary hot breakfast, free Wi-Fi, swimming pool, exercise room, and a business center.

Accreditation
The American Academy of Orthopaedic Surgeons is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education (CME) for physicians.

AMA CME Credit Designation
AAOS designates this live activity for a maximum of 14.5 AMA PRA Category 1 Credits™. Physicians should claim only the credits commensurate with the extent of their participation in the activity.

Obtaining CME Credit
Course participants must complete and submit an online evaluation form to receive CME credit.
Elevate your surgical skills for primary and revision hip replacement

Top hip surgeons guide you through the latest updates in total hip arthroplasty — inside and outside the operating room — so you can return to practice with refreshed techniques and contemporary approaches.

Two content-packed days maximize your exposure to new technologies:

Day One: Refresh your fundamentals for planning, protocols, decision-making and complication management. Deep dive into one of the hottest areas in THA with a new focus on outpatient surgery. Lectures, panel discussions and videos create a dynamic learning format.

Day Two: Move into the cadaver lab for hands-on experience with numerous procedures using new technology. Rotate through technology stations in small groups to familiarize yourself with new equipment and practice state-of-the-art techniques.

Return to practice with advanced strategies to build and implement the right action plan for your patients!

Look forward to:
- Hands-on experience with new technology: robotics, navigation, remote monitoring, and custom hips
- New! Outpatient THA section focusing on program formats and transition plans
- Networking with peers and faculty with small-group lab set-up

FRIDAY, APRIL 24
Morning 6:15am – 12:00pm
Welcome, Announcements, Registration
Lectures
Preoperative Testing and Evaluation
Preoperative Planning: Templating Basics

PRIMARY TOTAL HIP ARTHROPLASTY
Lectures
Implant Considerations: Stem
Implant Considerations: Acetabulum
Pre-Recorded Demonstration Videos
  » Anterior Approach
  » Posterior Approach
  » Direct Lateral Approach
Lectures
Preoperative, Intraoperative, and Postoperative Pain Management
Postoperative Protocols: PT, Precautions, Activities, DVT Prophylaxis
Panel Discussion: Protocols for Primary THA
Lectures
How to Avoid...
  • Fractures
  • Dislocations
  • Infections

OUTPATIENT TOTAL HIP ARTHROPLASTY
Lectures
Drivers of Outpatient Surgery
Components of a Successful Outpatient Program
Freestanding ASC vs. Hospital-Based Programs
Management of Intraoperative Complications at an ASC
Avoiding Re-Admissions
Panel Discussion: Transitioning to Outpatient THA
Lunch Provided

“The cadaver lab was the highlight of learning! Having total hip experts demonstrating surgical techniques while allowing for Q&A was worth the cost of the entire course.”
– Previous Course Participant

SATURDAY, APRIL 25
Morning 7:00am – 12:00pm
SURGICAL SKILLS LAB: New Technologies
Attendees rotate through each technology station in small groups
Direct Anterior Hip with Table
THA with Adaptable Arm
Robotics
Custom Alignment Guides
Articulating Antibiotics Spacers
Lunch Provided

Afternoon 1:15pm – 4:45pm
SURGICAL SKILLS LAB: Primary and Revision THA Approaches
Primary THA: Various Approaches
Revision THA:
  • Extensile Approaches
  • Extended Osteotomies
  • Femoral Cables

“Thanks to this course, I will be more confident in selecting which approach or treatment to offer my patients.”
– Previous Course Participant

**Day One:** Refresh your fundamentals for planning, protocols, decision-making and complication management. Deep dive into one of the hottest areas in THA with a new focus on outpatient surgery. Lectures, panel discussions and videos create a dynamic learning format.

**Day Two:** Move into the cadaver lab for hands-on experience with numerous procedures using new technology. Rotate through technology stations in small groups to familiarize yourself with new equipment and practice state-of-the-art techniques.

Return to practice with advanced strategies to build and implement the right action plan for your patients!

### FRIDAY, APRIL 24

**Morning 6:15am – 12:00pm**

- Welcome, Announcements, Registration

### PRIMARY TOTAL HIP ARTHROPLASTY

- **Lectures**
  - Implant Considerations: Stem
  - Implant Considerations: Acetabulum
- **Pre-Recorded Demonstration Videos**
  - Anterior Approach
  - Posterior Approach
  - Direct Lateral Approach

### OUTPATIENT TOTAL HIP ARTHROPLASTY

- **Lectures**
  - Drivers of Outpatient Surgery
  - Components of a Successful Outpatient Program
  - Freestanding ASC vs. Hospital-Based Programs
  - Management of Intraoperative Complications at an ASC
  - Avoiding Re-Admissions

### NEW TECHNOLOGY

- **Lectures**
  - Robotics in Primary THA
  - Non-Robotics Based Navigation
  - Custom Hip Implants
  - Remote Monitoring/Patient Engagement Platforms

**Schedule subject to change.**

**Register by March 15 for early-bird savings!**

*Earn 14.5 CME Credits | Register at aaos.org/hip2020*

**Afternoon 1:20pm – 5:30pm**

### REVISION TOTAL HIP ARTHROPLASTY

- **Lectures**
  - Evaluation of the Painful THA
  - Trunionosis and Metal/Metal Bearings
  - Evaluation and Management of Infection
  - Instability/Spine-Pelvis Relationship
  - Periprosthetic Fracture
  - Femoral Component Removal and Basics of Reconstruction
  - Acetabular Component Removal and Basics of Reconstruction

### Panel Discussion: Transitioning to Outpatient THA

**NEW TECHNOLOGY**

- **Lectures**
  - Robotics in Primary THA
  - Non-Robotics Based Navigation
  - Custom Hip Implants
  - Remote Monitoring/Patient Engagement Platforms

**SATURDAY, APRIL 25**
