

AAOE AAOS Partnership

Participate in the AAOE Empower and the AAOS Registry Program to advance the outcomes and quality of musculoskeletal care. The collaboration builds on the data collection capacities of both organizations and reduces the burden of data collection. Participation in AAOE Empower and the AAOS Registry Program supports data-driven decision-making to improve practice management, patient care, and quality of orthopaedic care.

American Association of Orthopaedic Executives (AAOE) Empower provides a single source of orthopaedic practice data.

- Collect patient satisfaction and patient-reported outcome measures (PROMs) using tools relevant to upper and lower extremities, neck, spine, and global functioning
- Customize patient emails and text messages by adding logos, signature blocks, or images; send emails from your practice's email domain
- Directly compare operational, satisfaction, and outcome results to industry benchmarks
- Utilize provider ranking reports to view outcomes within a practice
- Customize reports using interactive filters to leverage data for strategic decision making

American Academy of Orthopaedic Surgeons (AAOS) Registry Program includes the [American Joint Replacement Registry](#), the [Musculoskeletal Tumor Registry](#), the [Shoulder & Elbow Registry](#), the [American Spine Registry](#), a collaboration with the American Association of Neurological Surgeons, and the Fracture & Trauma Registry to launch in 2021.

- All AAOS registries and the collaborative ASR are CMS-approved Qualified Clinical Data Registries (QCDR)
- Unlimited access to standard reports and personalized, interactive dashboards at the site and surgeon level on the AAOS RegistryInsights® platform
- Utilize national benchmarks to understand your site's performance
- Complimentary custom reports
- Full access to the AAOS PROMs technology solution to administer and manage PROMs
- Qualify for a wide variety of Registry data reuse opportunities

Collaboration Benefits

- AAOE supports the transfer PROM data to AAOS to facilitate registry submissions to CMS for the quality, promoting interoperability, and improvement activity categories for MIPS
- AAOS members receive up to 10 Self Assessment Exam (SAE) credits per year towards Maintenance of Certification
- AAOE Empower participants select from over 10 PROMs, 3 satisfaction surveys, and receive advanced insights to drive decision making and quality improvement
- AAOS Registry Program participants recognized in Annual Reports for their commitment to data-driven quality improvement
