

## Earn ABOS Maintenance of Certification Credits through Registry Participation

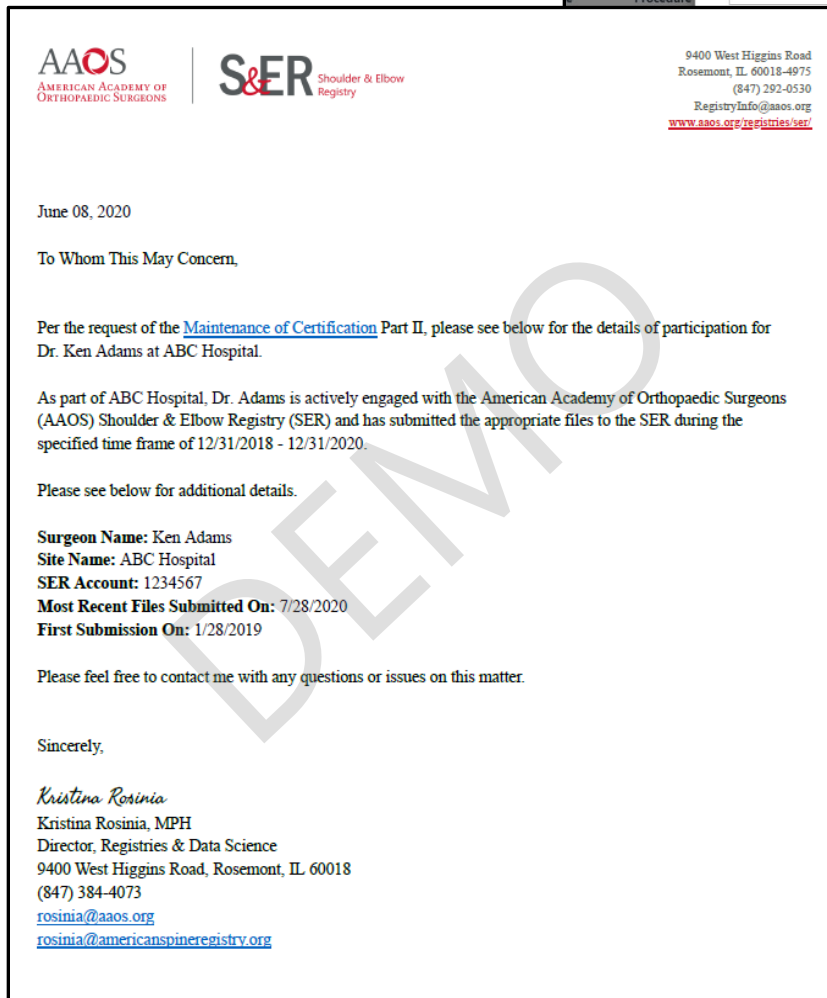

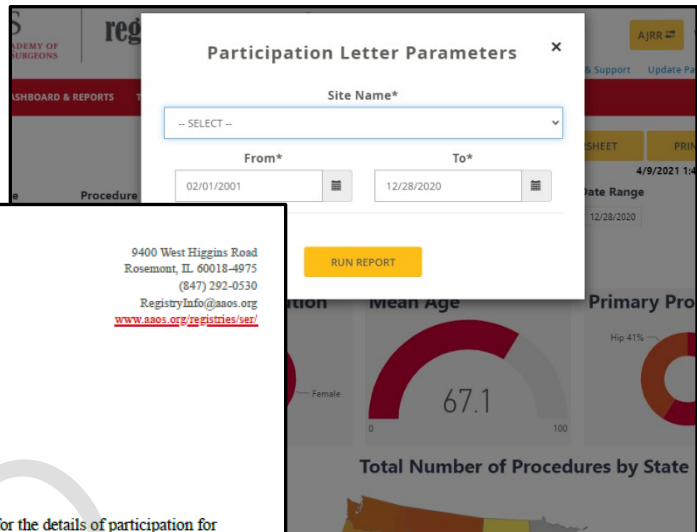

As part of its wide variety of data reuse initiatives, the American Academy of Orthopaedic Surgeons (AAOS) Registry Program provides surgeons the opportunity to earn up to 10 self-assessment examination (SAE) credits for the American Board of Orthopaedic Surgery (ABOS) Maintenance of Certification (MOC) Part II.

Steps to attain MOC Credit:

1. Be a contracted participant in an AAOS Registry
2. Active data submission
  - Your hospital, health system, or practice needs to be actively submitting data on your behalf (active = at least quarterly)
3. Login to the RegistryInsights® platform to view your data
  - You have access to download your MOC certification at any point via the Surgeon Dashboard on RegistryInsights

The screenshot displays the AAOS RegistryInsights platform. At the top left, the AAOS logo and 'registry insights' branding are visible. A login form on the right asks for 'Email Address' and 'Password' with a 'SIGN IN' button. A blue callout box with an arrow points to a yellow button labeled 'PRINT MOC COVERSHEET' on the dashboard. The dashboard itself features a navigation bar with 'HOME', 'DASHBOARD & REPORTS', and 'TOOLS & RESOURCES'. Below this, there are filters for 'Procedure Site', 'Procedure Type', 'Gender', 'Age Groups', and 'Encounter Date Range'. The main content area is titled 'All Procedures - Nationally' and includes several key metrics: 'Total Procedures' (2.23M), 'Gender Distribution' (Male/Female/Not Reported), 'Mean Age' (67.1), and 'Primary Procedures' (Hip 41%, Knee 59%). A table below these metrics shows the breakdown by gender and procedure type. At the bottom right, there is a map of the United States titled 'Total Number of Procedures by State'. The bottom navigation bar includes options like 'All Procedures', 'Your Procedures', and 'Your Performance Measures'.

4. Have your certificate validated and credit awarded by AAOS Registries staff
  - After you have downloaded your certificate from RegistryInsights, you will email it to [RegistryInfo@aaos.org](mailto:RegistryInfo@aaos.org) and state what year you are seeking credit for
  - You can obtain up to 10 SAE credits for each year of participation in the Registry
  - Separate certificates are needed for each year you are interested in receiving credit
  - An AAOS Registries team member will validate your participation in the registry, confirm active data submission, and award SAE credits

5. Submit your validated certificate to the ABOS portal for review
