San Diego Arthroscopy & Sports Medicine Fellowship

San Diego Arthroscopy and Sports Medicine fellowship currently has an open position for the 2019-20 academic year, beginning August 2019. This fellowship strives to teach the surgical indications and techniques for a wide variety of arthroscopic procedures. There is a significant exposure to reconstruction of the shoulder to include total and reverse arthroplasty. The program enhances knowledge of the care for the injured athlete as well as the general orthopaedic patient. The surgical experience will emphasize arthroscopic and arthroscopically-assisted shoulder, knee, ankle, elbow, and hip procedures. Each fellow will participate in approximately 500 operative cases and 800 procedures per year. There are opportunities for teaching residents and medical students within the context of the university affiliation. The fellow will gain on-field experience through involvement as the team physician for area high schools and colleges as well as professional and Olympic teams. The required research projects are facilitated through access to basic science labs as well as an arthroscopic lab and dissection materials.

For further information please visit our website at www.sportsfellows.com or contact Mari Heerlyn at mari@sdsm.net or Renee Hardesty at renee@sdsm.net

ORTHOPEDIC SPORTS MEDICINE AND TOTAL JOINT OPPORTUNITY

Sports Medicine North is seeking TWO BC/BE fellowship trained Orthopedic Surgeons, one specializing in Sports Medicine/Arthroscopy and the other Total Joint Arthroplasty. Sports Medicine North is a cutting edge, 17 physician, multispecialty orthopedic practice that boasts an on-site surgical center, MRI, physical therapy, and DME. Competitive salary and benefits, 1:6 weekday/weekend call, bonus potential in first year. SMN is located on Massachusetts North Shore, a community with easy access to the excitement of Boston and the mountains of New Hampshire. Applicants with local ties to MA preferred.

To apply, send current Curriculum Vitae to jobs@sportsmednorth.com.

Submission of full contact information of at least three individuals from whom we can obtain letters of support is preferred.

1 Orthopedics Drive, Peabody, MA 01960
(978) 818-6350, www.sportsmednorth.com
The FDA’s Center for Devices and Radiological Health is recruiting Orthopedic Surgeons to work as Medical Officers in the Division of Orthopedics Devices (DOD) evaluating clinical trials for cutting-edge orthopedic medical devices. Individuals have a significant role in clinical trial study design, clinical study data evaluation, and clinical research analysis. You will also be responsible for analyzing and interpreting clinical data and providing written and verbal recommendations on submissions. As a Medical Officer, you will offer advice to up to five orthopedic branches covering spinal implants, joint prostheses, trauma, and fracture fixation. You will also provide the division staff with a clinical perspective on the use of various spinal devices and findings from adverse event reporting. Individuals will have an opportunity to interact frequently with clinical investigators and representatives of regulated industry. Preference is for candidates with experience/knowledge regarding spinal devices and joint arthroplasty devices, but all subspecialties will be considered.

Although relocation expenses are not paid, candidates must relocate to the Washington, DC Metropolitan area. Starting salary ranges from $165,000-$180,000 per year with an excellent benefits package (for those with board certification or eligibility).

Applicant must possess a Doctor of Medicine or Doctor of Osteopathy from a school in the United States or Canada approved by a recognized accrediting body in the year of the applicant’s graduation. A Doctor of Medicine or equivalent degree from a foreign medical school that provided education and medical knowledge substantially equivalent to accredited schools in the United States may be demonstrated by permanent certification of the Education Commission for Foreign Medical Graduates (ECFMG) (or a fifth pathway certificate for Americans who completed premedical education in the United States and graduate education in a foreign country).

In addition, applicants/candidates must have a permanent, full, and unrestricted license to practice medicine in a State, District of Columbia, the Commonwealth of Puerto Rico, or a territory of the United States. Orthopaedic board certification or eligibility (ABOS) is preferred.

Academic Orthopaedic Hand Surgeon

Marshall Orthopaedics, a university-affiliated physician group, is currently seeking qualified candidates for an orthopaedic hand position within our department. This position, with a practice location at our academic medical center in Huntington, West Virginia, will provide for a practice that is primarily focused on the subspecialty of orthopaedic hand surgery.

Marshall Orthopaedics is an academic department affiliated with the Marshall University Joan C. Edwards School of Medicine. We support an orthopaedic residency and train 3 residents per year. The department’s hand/upper extremity division currently has two partners, Dr. Alan Koester and Dr. Steven Novotny. Due to rapidly increasing volume, we are recruiting a third orthopaedic hand surgeon to our department.

We offer an attractive, university employee-based benefits package that provides a very competitive compensation package, especially with respect to other academic medical centers. This position also offers the opportunity to be involved in resident and medical student educational activities and orthopaedic research activities.

About Marshall Orthopaedics - Marshall Orthopaedics is an academic-based physician group affiliated with Marshall University. Based out of Huntington, West Virginia, Marshall Orthopaedics has a network of clinical affiliations and provides patient care within offices in West Virginia, Kentucky and Ohio. Our physicians are fellowship-trained in the full spectrum of orthopaedic subspecialties. We support an orthopaedic residency and train 3 residents per year. For more information, please visit: www.muorthopaedics.com
