

General Information

Description

We listened to your comments and suggestions that you shared with us in Orlando! Our re-designed 2017 program is divided into 10 sessions focusing on a wide range of contemporary topics relevant to today's surgeon and practice – from **Implant Wear and Complications** to **Prevention and Management of Geriatric Hip Fractures**, from **Outpatient THA** to **“Lessons Learned”**. Participants will enjoy the updated format that will feature thought-provoking case-based presentations and lively discussions by panels of North American and international experts. A special highlight will be The Hip Society's Scientific Awards. **NEW in 2017:** A combined session on **Transitioning to Value-Based Healthcare** will be presented simultaneously in the Hip and the Knee session rooms, with a video link between both. **NEW in 2017:** Lunch for all participants will be provided at no additional charge. All-day non-CME live stream will be available. All participants will receive complimentary unlimited access to the recorded archives for one (1) full year following Specialty Day.

Target Audience

The intended audience is orthopaedic surgeons, fellows, residents, and allied health professionals.

Course Objectives

The objectives of the Open (Winter) Meeting of The Hip Society and AAHKS are to provide up-to-date information on the treatment of hip conditions, including non-arthroplasty options, and the latest surgical techniques, as well as the current thinking on bearing surfaces. Other objectives address the difficult primary THA and complication management and include an update on revision THA.
