AAOS/AOFAS
Total Ankle Arthroplasty in 2018: The Newer Kids on the Block

May 10 – 12, 2018
OLC Education & Conference Center, Rosemont, IL

Steven L. Haddad, MD
Course Director

Hands-on practice with four FDA-approved U.S. ankle implants!
Learn from the experts!

Gain a comprehensive look into the challenging world of managing end-stage ankle arthritis. Take advantage of hands-on training of four different implant systems in a single-weekend, saving countless hours participating in individual prosthesis corporate-run courses. The small faculty-to-participant ratio provides the opportunity for direct contact with the experts, both in surgical skills development and for one-on-one questions.

Course highlights include:

- Hands-on implementation of the four most recently FDA-approved U.S. ankle implants! Learn the procedures, necessary equipment, and advantages and disadvantages of each.
  - INFINITY™ Total Ankle System
  - Integra® Cadence® Total Ankle System
  - Zimmer® Trabecular Metal™ Total Ankle
  - Exactech Vantage® Total Ankle System
- Hot topics – arthrodesis, joint-preserving operations, and arthroplasty

Who should take this course?

Fellowship-trained foot and ankle surgeons as well as generalists and joint replacement surgeons with an interest in expanding their practice to total ankle arthroplasty.

For more details and to register visit aaos.org/3346
THURSDAY, MAY 10
Evening 5:00 pm – 9:30 pm

BACK TO THE BASICS

LECTURE
Conservative Treatment of Ankle Arthritis

DEBATE
Ankle Arthrodesis vs. Ankle Replacement: The Showdown
