Orthopaedic Trauma Association

Target Audience
This meeting is designed for orthopedic surgeons and is beneficial to related allied health care professionals. OTA has created the program based on stated needs and interests expressed from previous Specialty Day attendee evaluations.

Educational Objectives
Upon completion of this program, participants should be able to:

- Understand the most recent, evidence-based treatment management approaches for general trauma, geriatric, upper and lower extremity fractures
- Review fracture reduction techniques
- Understand the support for fixation vs. arthroplasty for common fractures
- Distinguish various treatment options for common sports-related traumatic injuries

CME Credit
This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American Academy of Orthopaedic Surgeons and the Orthopaedic Trauma Association.

The American Academy of Orthopaedic Surgeons is accredited by the ACCME to provide continuing medical education for physicians. The American Academy of Orthopaedic Surgeons designates this live activity for a maximum of 5.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Combined afternoon session with the American Orthopaedic Society for Sports Medicine (AOSSM)/Orthopaedic Trauma Association: Please refer to AOSSM combined session CME statement.
