Morial Convention Center
Room 265
7:30 am – 4:50 pm

American Society for Surgery of the Hand/American Association for Hand Surgery

“Agree to Disagree: Hot Topics in Hand and Upper Extremity Surgery”

General Information
Description
With the fast paced changes and government intervention in health care impacting all physicians, an understanding and familiarity of value based care and patient related outcomes research is more essential for the hand and upper extremity surgeon. This symposium will explore how value is defined in hand surgery and discuss controversial topics while providing evidence-based treatment algorithms for a wide scope of hand and upper extremity problems. In addition, interactive question-answer sessions will be used to investigate evidence based recommendations for hot topics such as complications related to obesity and the influence of narcotic use and smoking on hand surgery outcomes.

Target Audience
Advanced Hand and Upper Extremity Surgeons

Course Objectives
Review the concept of what defines value in surgery, explain common outcomes measures and databases used in hand surgery and discuss evidence based treatment options for controversial problems. At the end of the symposium, audience members will be able to determine what they need to implement in their practice to improve the value they provide in patient care and understand evidence based treatment options for nerve injuries, fractures, fusions, tendon injuries and tumors in the hand and upper extremity.

Accreditation
Credit Hours
Credit Hours 9 AMA PRA Category 1 Credits™

Announcement

Program Committee Leadership
A. Bobby Chhabra, MD, Program Co-Chair
Peter J. Jebson MD, Program Co-Chair

7:30 am – 7:35 am
Introductions
A. Bobby Chhabra, MD, Program Co-Chair,
Peter J. Jebson, MD, Program Co-Chair,
Brian D. Adams, MD and James Chang, MD

7:36 am – 9:09 am
Session I: Value in Hand and Upper Extremity Disorders

Moderator: Robin Neil Kamal, MD

7:36 am – 7:42 am
What is value in hand and upper extremity surgery? 
Robin Neil Kamal, MD

7:43 am – 7:49 am
Patient safety: the role of the hand and upper extremity surgeon in preventing errors
David C. King, MD, PhD

7:50 am – 7:56 am
Patient Related Outcomes in hand and upper extremity surgery: which ones should I be using {PROMIS, DASH, etc.}? 
Jennifer F. Waljee, MD

7:57 am – 8:03 am
What is a value analysis program? 
Andrew P. Gutow, MD

8:04 am – 8:10 am
How should we be optimizing our patient’s pre-operatively to improve patient related outcomes? 
Peter J. Evans, MD, PhD, FRCS

8:11 am – 8:17 am
Obesity and its impact on hand and upper extremity surgery: is it an issue? 
Aaron M. Freilich, MD

8:18 am – 8:24 am
Smoking cessation for elective hand and upper extremity surgery: should I care? 
Peter M. Murray, MD

8:25 am – 8:31 am
Narcotics following hand and upper extremity surgery: can we do better? 
Asif M. Ilyas, MD

8:32 am – 8:38 am
Elective hand surgery and routine antibiotics: is better stewardship necessary? 
Melvin P. Rosenwasser, MD

8:39 am – 8:45 am
Bundled payments in hand and upper extremity surgery: lessons learned from our joint replacement colleagues 
Mark Rekant, MD

8:46 am – 8:52 am
WALANT in the office setting: should we be doing this more to improve value? 
Levi L. Hinkelman, MD

8:53 am – 9:09 am
Mass wisdom and Q & A session

9:10 am – 10:44 am
Session II: Hot Topics and Controversies in Hand and Upper Extremity Surgery-Nerve

Moderator: Marco Rizzo, MD

9:10 am – 9:16 am
Nerve repair: conduit vs. allograft vs. autograft? 
Bauback Safa, MD, MBA

9:17 am – 9:23 am
Distal radius fractures and the median nerve: do we really know what to do? 
Randip R. Bindra, FRCS, MCh Orth

9:24 am – 9:30 am
Distal radius fractures and the ulnar nerve: be aware 
Reid A. Abrams, MD

9:31 am – 9:37 am
Carpal tunnel surgery: what makes sense in the value proposition? 
Matthew J. Meunier, MD

9:38 am – 9:44 am
Revision carpal tunnel surgery: is there a preferred technique? 
Sanjeev Kakar, MD

9:45 am – 9:51 am
Ulnar decompression at the elbow: endoscopic versus open in the value proposition 
Jonathan E. Isaacs, MD

9:52 am – 9:58 am
Revision cubital tunnel surgery: do we really know the preferred technique? 
William B. Kleinman, MD

9:59 am – 10:05 am
High radial nerve palsy: neurolysis, grafting, or tendon transfers? 
Milan V. Stevanovic, MD

</table>
2:45 pm – 3:25 pm  Session V: Tumor

**Moderator:** Robert Harold Ablow, MD

2:45 pm – 2:51 pm  Enchondroma and pathological fracture: when do I operate?
Robert Harold Ablow, MD

2:52 pm – 2:58 pm  Enchondroma: to graft or not to graft?
If a graft what type?
Matthew R. Steensma, MD

2:59 pm – 3:05 pm  Flexor tendon sheath ganglion: serial aspirations or simple excision?
Peter J. Stern, MD

3:06 pm – 3:12 pm  Dorsal wrist ganglion: observation vs. aspiration vs. arthroscopic or open excision?
Ericka A. Lawler, MD

3:13 pm – 3:25 pm  Mass wisdom and Q & A session

3:26 pm – 4:50 pm  Session VI: Potpourri

**Moderator:** Jennifer Moriatis Wolf, MD

3:26 pm – 3:32 pm  PRP/stem cells for thumb CMC arthritis: Is there an advantage over corticosteroid injections?
Jennifer Moriatis Wolf, MD

3:33 pm – 3:39 pm  Pyrocarbon vs. metallic vs. silicone for PIPJ implant arthroplasty?
A. Lee Osterman, MD

3:40 pm – 3:46 pm  Volar versus the dorsal approach for PIPJ arthroplasty?
Scott W. Wolfe, MD

3:47 pm – 3:53 pm  Dupuytren’s contracture: extension torque, fasciectomy, fasciectomy or collagenase?
Mark E. Baratz, MD

3:54 pm – 4:00 pm  Compartment syndrome of the first dorsal interosseous: does it exist?
Angelo Rashard Dacus, MD

4:01 pm – 4:11 pm  Mass wisdom and Q & A

4:12 pm – 4:50 pm  Closing comments and adjournment
A. Bobby Chhabra, MD, Program Co-Chair and Peter J. Jebson, MD, Program Co-Chair
