**Prepare for Your Certification Exam and Maintenance of Certification (MOC)**

Orthopaedic Review Course: Update for Your Practice and Preparation for Your Test #490

Moderator: R. Swadley, MD
- Friday, March 17
- 7:30 AM – 4:45 PM

Bring your up-to-date data on the diagnosis and management of clinical problems from a nationally acclaimed orthopaedic perspective.

- Major sections covered in the course are upper and lower extremity, pediatrics, metabolic disease, bone disease, tumors, and spine.
- Each section includes discussion of fractures, complications, infections, and trauma with a moderated question-and-answer period at the end of each section.

The new, streamlined presentation format is designed for optimal retention and a stimulating learning experience.

Continental breakfast and box lunch are included in the fee, which is $320 in advance and $420 on-site.

---
